

Pillars of the GW OHT Steering Committee Work Plan

OHT Maturity

- Advance Integrated Primary Care Team (IPCT) maturity (with emphasis on priority populations) guided by the patient and provider voice
- Develop infrastructure to streamline and optimize structures, functions and standard processes across partner organizations
- Identify and enable integrated digital health, privacy, decision support and other enablers
- Develop and implement a robust quality improvement and continuous learning change management framework that will enable an adaptive/iterative approach to system, structural and process changes

Population Health Management

- COVID-19 Vaccination and Recovery
- Advance Population Health Management Capacity of G&A OHT
- Develop a shared understanding and plans to address social determinants of health in the design of integrated and preventative care within IPCT

Diversity and Inclusivity

- Demonstrate our commitment to Anti-Oppression through the development and implementation of our Anti-Oppression and Anti-Racism strategy
- Develop creative and multi pronged approaches that will capture diverse experiences across the spectrum of healthcare
- Develop a 'GW OHT Patient and Community Partnership Program' that recruits, trains and supports Advisors as well as capacity amongst leaders to actively involve Advisors

Strategy

- Advance Joint Strategic Priorities (TBD)
- Develop shared GW OHT strategic governance and accountability framework including patients and clinicians
- Advance Rural Wellington Partnership

Our People

- Identify opportunities to leverage staff expertise and services across sectors
- Develop a shared "people-based" vision among OHT partners, that values staff/provider engagement and culture
- Develop and implement a best practices-informed strategy to achieve an aligned team culture and staff engagement
