

As the community continues to fight COVID-19, *it's important not to overwhelm our Health Care System.*

Guelph Doctors and Nurse Practitioners have **day-time appointments** and **after-hours clinics** over the holidays to support your **urgent care needs**.

Guelph FHT clinics are **OPEN** for **IN-PERSON** and **VIRTUAL appointments**. Your local Health Care Providers are working harder than ever before as we face this next phase of the pandemic and we ask for your understanding and patience.

Please understand we must focus on essential and urgent care. If you have health concerns, please don't ignore them. Call your Doctor's office or check www.guelphfht.com for information on after-hours clinics.

The Guelph Health Care system –
Working together to support the community!
